Intensive soil, organic and environmentally friendly formula, enriched with nutrients to improve damaged soil and root growth

How to use: Dissolve in water as needed for each plant. Pour soil or tree roots

**Net weight: 1,000 grams**

**Code: 5015**

**Retail price: 690 Baht**

# How to use

## Method 1

10 - 50 grams of Transform Soil dissolved in 20 liters of water, poured onto the soil or roots.

## Method 2

1 bag of Transform Soil (equal to 1 kilogram) dissolved in 1,500 - 2,000 liters of water released into the fields

## Method 3

2 tablespoons of Transform Soil 2 per plant, sprinkled around the plant. Water the plant accordingly or sprinkle onto wet soil. This will help the soil absorb the solution quickly.

## Method 4

Mix Transform Soil with fertilizer or manure (1 kilogram of Transform Soil to 50-100 kilograms of fertilizer).

(Method 4 will improve the efficiency of the fertilizer that is used alongside Transform Soil.)
