FEMININE WASH +
pH - BALANCE

for your intimate area

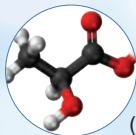

Feminine hygiene product for sensitive skin with pH balance which helping you feel clean and confidence everyday with natural protection.

ACTIVE INGREDIENTS

IPMP (Isopropylmethylphenol)

Is a good antibacterial and antimicrobial which able to stop bacteria effectively as well as Triclosan, in addition IPMP is natural degradation.

LACTIC ACID

help to balance your vaginal pH (potential of hydrogen), normally, the healthy bacteria (Lactobacillus) predominate and they keep the vaginal pH is slightly acidic. The lactobacilli help maintain vaginal acidity by producing lactic acid, thereby making the vagina inhospitable to many other microorganisms. This helps to cleanse and prevent your vaginal area from bacterial infection, itching and unpleasant odor.

ROSE DAMASCENA

The ingredient is anti-bacteria and anti-septic which moisturize and soothe your vagina and anti-oxidant which help brighten and faster restore your skin, reduce dark spot, against irritations and skin redness and help keep a healthy and infection fighting vagina.

CHAMOMILE OIL

Helping skin mildness, antibacterial and antifungal which against intimate irritation.

BISABOLOL

Bisabolol comes from Candeia extract which has natural anti-inflammatory properties. it reduces inflammation and inflammatory reactions, gently promote wound healing, against irritation, inflammation and red rashes. it can help soothe and calm your sensitive skin.

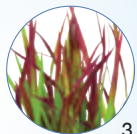

ALOE VERA

It's can reduce inflammatory skin, increasing smooth and moist skin.

SPRING SEA WATER

Natural spring water (below granite levels) under the France sea which compound with nutrients and organic substance. It's can heal and protect moisture in the cells.

IMPERATA CYLINDRICA ROOT

It's a desert plant has 2 significant substances which are Potassium and 3 -DMSP. The extract has efficacy to support an increase in hydration levels 24 hours therefore it made glow and smooth skin.

CAMEOXY-OIL

The oil extract from Eremanthus erythropappus, Oxalis triangularis and Camellia japonica. The above 3 herbs are well known as anti-oxidant and skin irritation. This substances help soften, moisturize the skin, whitening and brighten skin tone, also decrease a number of skin pigment and inhibit enzyme Tyrosinase.
