Silver Nano

Soft touch, Gentle for skin

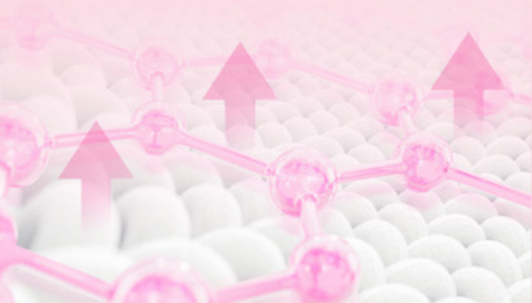

Prevent musty smell on clothes

Naturally degradable

Key Ingredients

Palm Stearin Fatty Acid

Cationic Surfactant helps soften the fabric. It is a cationic ester quat for fabric softening products that can be evenly coated on the fabric surface, making you feel gentle and fluffy. Easy to use, high stability for a long shelf life than other products in the market. The scent is refreshing. Most importantly, it is degradable naturally, so it is considered an environmentally-friendly product. Guaranteed with MUI HALAL CERTIFICATION from Indonesia.

Coco Glucoside & Glycerol Oleate

It contains vegetable fat, Glycerol Monooleate, which is naturally found in our skin, so it is safe and suitable for all skin types, even for children. It gives you a soft and comfortable touch.

Silver Nano

Silver nano molecules can help inhibit microorganisms, bacteria, and viruses and eliminate germs as well. It also helps kill bacteria that may be caused by an accumulation of sweat on clothes and get rid of unpleasant odor effectively.
